12. PUBLIC RELEASE. Any information (classified or unclassified) pertaining to this contract shall not be released for public dissemination except as provided by the appropriate Government authority. Proposed public releases shall be submitted for approval prior to release.

☐ Direct ☒ Through (Specify):

ASC/PA, Building 14
1865 4th Street, Suite 15
Wright-Patterson AFB, OH 45433-7129

Public release of Sensitive Compartmented Information (SCI) is not authorized.

to the Directorate for Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs) for review.
In the case of non-DoD User Agencies, requests for disclosure shall be submitted to that agency.

13. SECURITY GUIDANCE. The security classification guidance need for this classified effort is identified below. If any difficulty is encountered in applying this guidance or if any other contributing factor indicates a need for changes in this guidance, the contractor is authorized and encouraged to provide recommended changes; to challenge the guidance or the classification assigned to any information or material furnished or generated under this contract; and to submit any questions for interpretation of this guidance to the official identified below. Pending final decision, the information involved shall be handled and protected at the highest level of classification assigned or recommended. (Fill in as appropriate for the classified effort. Attach, or forward under separate correspondence, any documents/guidelines/extracts reference herein. Add additional pages as needed to provide complete guidance.)

This is a task order contract, each individual task which requires access to classified information will require a separate and specific DD Form 254.

The National Industrial Security Program Operating Manual (NISPOM), January 1995, applies.

Ref Blk 10a and 11h: COMSEC and/or cryptographic requirements apply. See DoD 5220.22-S for details.

Ref Blk 10e(2): General Intelligence Material/Foreign Disclosure applies. See addendum.

Ref Blk 10j: FOUO applies. See addendum.

Ref Blk 11c: The contractor will require access to classified source data up to and including Top Secret in support of this work. Any extracts or use of such data will require contractor to apply derivative classifications and markings consistent with the source from which the extracts were made. Classification, declassification and markings will be in accordance with Executive Order 12958.

Ref Blk 11i: TEMPEST requirements apply. See addendum.

Ref Blk 11l: The Notification of Government Security Activity and Visitor Group Agreement applies. See contract clause for details.

Functional area

Evaluator: for Basic DD Form 254: Mr. Carl A. Conley, ASC/FMP, (937)255-5680.

(SEE CONTINUATION PAGE)

14. ADDITIONAL SECURITY REQUIREMENTS. Requirements, in addition to ISM requirements, are established for this contract. (If Yes, identify the pertinent contractual clauses in the contract document itself, or provide an appropriate statement which identifies the additional requirements. Provide a copy of the requirements to the cognizant security office. Use Item 13 if additional space is needed.)

☒ Yes ☐ No

Ref Blk 10e(1) SCI requirements apply. See addendum.

15. INSPECTIONS. Elements of this contract are outside the inspection responsibility of the cognizant security office. (If Yes, identify specific areas or elements carved out and the activity responsible for inspections. Use Item 13 if additional space is needed.)

☒ Yes ☐ No

Ref Blk 10e(1): SCI requirements apply. See addendum.

Ref Blk 11L: ASC/SYSI will maintain security cognizance for all task orders that require on-base effort.

16. CERTIFICATION AND SIGNATURE. Security requirements stated herein are complete and adequate for safeguarding the classified information to be released or generated under this classified effort. All questions shall be referred to the official named below.

SENSITIVE COMPARTMENTED INFORMATION CLAUSES
(SCIF NOT REQUIRED)

The following controls will apply to Sensitive Compartmented Information (SCI) provided under this contract:

1. Item 14: USAFINTEL 201-1, DOD TS-5105.21-M-1, DCID 1/14 and 1/21, and DIAM 50-5 provide the necessary guidance for EMSEC (emission security), physical, personnel and information security measures and is part of the SCI security specifications for the contract.
2. Item 15: This contract requires access to SCI. The National Air Intelligence Center (NAIC) Special Security Office (SSO) has exclusive security responsibility for all SCI released to the contractor or developed under this contract. The Defense Intelligence Agency (DIA), or its designee, shall be responsible for all inspections of the contractor to insure compliance with SCI Directives/Regulations. All SCI will be handled in accordance with security requirements furnished by the Aeronautical System Center (ASC) SSO, located in ASC/CVS.
3. SCI will not be released to contractor employees without the specific release approval by the originator of the material as outlined in the governing directives and based on prior approval and certification of "need to-know" by the contract monitor, Mr. Steven M. Davis, ASC/RAH, (937)255-3695.
4. Names of contractor personnel requiring access to SCI and justification for SCI billets will be submitted to the ASC SSO after contract monitor approval/concurrence. Upon receipt of written approval from the contract monitor, the Contractor Special Security Officer (CSSO) may submit the necessary forms to DISCO for a Single Scope Background Investigation (SSBI) for those personnel nominated for SCI access in accordance with the National Industrial Security Program Operating Manual (NISPOM).
5. Inquiries pertaining to classification guidance on SCI will be directed to the contract monitor listed in 3 above.
6. All SCI furnished to the contractor in support of this contract remains the property of the Department of Defense, or the agency or command that releases it. Upon completion or cancellation of the contract, SCI furnished will be returned to the NAIC SSO.
7. This contract requires that 2 SCI contract billets be established in order to fulfill the contractual obligations incurred. Access will be granted by the sponsoring government agency. Upon completion or cancellation of the contract, the CSSO will debrief all personnel not required for contract close-out and those billets will be disestablished.
8. Access will be granted only at the sponsoring agency and other accredited SCI Facilities (SCIF) as approved by the government Contract Monitor..

ADDENDUM TO DD FORM 254
December 1995/Corrected 26 June 1996

FOR OFFICIAL USE ONLY

The following procedures will be used to protect FOR OFFICIAL USE ONLY (FOUO) information.

1. **HANDLING:** Access to FOUO material shall be limited to those employees who need the material to do their jobs. The FOR OFFICIAL USE ONLY marking is assigned to information when created by a DOD User Agency. FOR OFFICIAL USE ONLY is not a classification, but requires extra precautions to ensure it is not released to the public.

2. **MARKING:**

a. Mark an unclassified document containing FOUO information "FOR OFFICIAL USE ONLY" at the bottom of each page containing FOUO information and on the bottom of the front page or front cover (if any) and on the back of the last page and on the back cover (if any).

b. In a classified document, mark:

- An individual paragraph that contains FOUO, but not classified information, by placing "(FOUO)" at the beginning of the paragraph.

- The top and bottom of each page that has both FOUO and classified information, with the highest security classification of the information on that page.

- "FOUO" at the bottom of each page that has FOUO but not classified..

- If a classified document also contains FOUO information or if the classified material become FOUO when declassified, place the following statement on the bottom of the cover or the first page, under the classification marking: "NOTE: If declassified, review the document to make sure material is not FOUO and not exempt under AFI 37-131 before public release.

c. Mark other records, such as computer print outs, photographs, films, tapes, or slide "FOR OFFICIAL USE ONLY" so that the receiver or viewer knows the record contains FOUO information.

d. Mark each part of a message that contains FOUO information. Unclassified messages containing FOUO information must show the abbreviation "FOUO" before the text begins.

e. Make sure that documents that transmit FOUO materials call attention to any FOUO attachments.

f. Any FOUO material released to a contractor by a DOD User Agency must have the following statement on the front page or cover: **THIS DOCUMENT CONTAINS INFORMATION EXEMPT FROM MANDATORY DISCLOSURE UNDER THE FREEDOM OF INFORMATION ACT. EXEMPTION(S) _____ APPLY.**

3. **STORAGE:** To safeguard FOR OFFICIAL USE ONLY records during normal duty hours, place them in an out-of-sight location if your work area is accessible to persons who do not have a valid need for the information. After normal duty hours, store FOUO records to prevent unauthorized access. File them with other unclassified records in unlocked files or desks when internal building security is provided. When there is not internal security, locked buildings or rooms usually provide adequate afterhours protection. For additional protection, store FOUO material in locked containers such as file cabinets, desks, or bookcases. Expenditure of funds for security containers or closed areas solely for the protection of FOUO data is prohibited.

4. **TRANSMISSION:** FOUO material shall be transmitted by the same methods as other UNCLASSIFIED material. Discussion of FOUO material on the telephone is authorized if necessary for performance of the contract. FOUO information may be transmitted over telephone lines in digital form, by telecopies, or by other DSN teletype lines without encryption.

5. **RELEASE:** FOUO information shall not be released outside the contractor's facility except to representatives of the DOD.

6. **DESTRUCTION:** When no longer needed, FOUO information may be disposed of by a method which will preclude its disclosure to unauthorized individuals.

ADDENDUM TO DD FORM 254
22 October 1996

GENERAL INTELLIGENCE MATERIAL/FOREIGN DISCLOSURE

1. Special Requirements for General and Foreign Intelligence Material. In addition to the requirements and controls for classified material, the Director, Central Intelligence, sets up additional requirements and controls for intelligence in the possession of contractors. The Contractor must:

a. Maintain control of all intelligence materials released in his or her custody in accordance with DOD 5220.22-M, the National Industrial Security Program Operating Manual (NISPOM), January 1995, paragraphs 5-200, 201 and 202 for control. Contractor agrees that all intelligence material released, all reproductions and other material generated (including reproductions) are the property of the US Government.

b. Maintain control of all reproduced intelligence data in the same manner as the original.

c. Destroy intelligence materials in accordance with approved methods identified in the NISPOM.

d. Restrict access to those individuals with a valid need-to-know who are actually providing services under the contract. Further dissemination to other contractors, subcontractors, or other government agencies and private individuals or organizations is prohibited unless authorized in writing by the Contracting Officer's Representative (COR) with prior approval of ASC/NAIC/POA.

e. Not release intelligence data to foreign nationals or immigrant aliens, regardless of their security clearance or contract status, without advance written permission from COR, Foreign Disclosure Policy Office (ASC/SYSR), and ASC/NAIC/POA.

f. Ensure that each employee having access to intelligence material is fully aware of the special security requirements for this material.

2. Returning Intelligence to the Air Force. Contractors must return intelligence data to the COR at the termination or completion of a contract unless the COR has provided written approval for the contractor to retain for an additional two years. If retention is required beyond the two year period, the contractor must again request and receive written retention authority from the COR. If the COR grants retention authority, he or she must provide a copy of the written approval to ASC/NAIC/POA.

3. Release Of Classified and Unclassified Information to Foreign Government and Their Representatives. Any military activity or defense contractor receiving a request from a foreign government, or a representative thereof, for intelligence data about this program, shall forward the request to ASC/SYSR and ASC/NAIC/POA. Information released under Foreign Military Sales (FMS) must comply with the specific USAF disclosure guidance issued for the specific FMS customer.

USE OF SPECIAL INTELLIGENCE MARKINGS**1. Authorized Control Markings of Intelligence Information****a. "Dissemination and Extraction of Information Controlled by Originator (ORCON)".**

This marking is used only on classified intelligence that clearly identifies or would reasonably permit ready identification of intelligence sources or methods that are particularly susceptible to countermeasures that would nullify or measurably reduce their effectiveness. It is used to enable the originator to maintain continuing knowledge and supervision of the further use of intelligence beyond the original dissemination. This control marking may not be used when an item of information will reasonably be protected by use of any other markings specified herein, or by the application of the "need-to-know" principle and safeguarding procedures of the security classification system.

b. "Not Releasable to Foreign Nationals (NOFORN)".

This control marking is used to identify classified intelligence material that may not be released in any form to foreign governments, foreign nationals, or non-US citizens without permission of the US Government originator, and then only when released in compliance with the National Disclosure Policy.

c. "Authorized for Release to (Name of country(ies)/international organization"

This marking is used to identify classified intelligence material that the US Government Originator has predetermined to be releasable or has been released through established foreign disclosure channels to the indicated country(ies) or organization.

2. Procedures Governing Use of Control Markings

a. Any recipient desiring to use intelligence in a manner contrary to the restrictions established by the control markings set forth above, shall obtain the advanced permission of the originating agency. Such permission applies only to the specific purposes agreed to by the originator and does not automatically apply to all recipients. Originator will ensure that prompt consideration is given to recipients' requests, with particular attention to reviewing and editing if necessary, sanitized or paraphrased versions to derive a text suitable for release subject to lesser or no control markings.

b. The control markings authorized above shall be shown on the title page, front cover, and other applicable pages of documents, incorporated in the text of electrical communications, shown on graphics, and associated (in full or abbreviated form) with data stored or processed in automatic data processing systems. The control markings also shall be indicated by parenthetical use of the markings abbreviations at the beginning or end of the appropriate portions. If the control markings apply to several or all portions, the document may be marked with a statement to this effect rather than marking each portion individually.

c. The control markings in paragraph one (1) shall be individually assigned at the time of preparation of intelligence products and used in conjunction with security classifications and other markings specified by EO 12958 and its implementing ISOO Directive. The markings shall be carried forward to any new format in which the same information is incorporated including oral and visual presentations.

Current Guidance

Implementation of DCID 1/7, 16 Apr 96, Postponed.

ADDENDUM TO DD FORM 254
Revised 31 October 1996

EMISSION SECURITY (EMSEC) REQUIREMENTS
(FORMERLY TEMPEST REQUIREMENTS)
FOR CLASSIFIED PROCESSING

1. The contractor shall provide vulnerability assessment data to the contracting officer in the form of an EMSEC Security Assessment (ESA). The reply should provide specific responses to the areas covered in paragraphs A through C depending on level of classified processing. A contractor's Standard Security Plan is unacceptable as a "stand-alone" response. This information will be used to complete the ESA of the contractor's facility, to be performed by the government EMSEC professional IAW Air Force EMSEC directives.
2. When any of the information required in paragraphs A through C below changes (such as location or classification level), the contractor shall notify the contracting officer of the changes so a new ESA may be accomplished. The contractor shall submit to the Program Management Office (PMO) a new ESA, identifying the new configuration, at least thirty (30) days before the changes occur; the contractor shall not commence classified processing in the new configuration until receiving approval to do so from the contracting officer.

A. SYSTEM DESCRIPTION

(1) **SYSTEM/FACILITY:** Full name and address of company submitting request and RFP/contract number and duration. Also provide a brief title identifying the overall system or facility (e.g., XYZ Missile word processing system, ABC aircraft interactive graphics system, etc).

(2) **LOCATION;** Identify the address (including city, state, zip code, facility, building and room number) where the system or facility is located. Further identify any other contractor/company/agency located with 200 meters of the facility (building, room or office where classified processing is taking place.)

B. RESPONSIBLE PERSONNEL:

(1) **SECURITY OFFICE/MANAGER:** Provide name, title, office symbol, and telephone number. Include the same for the company appointed EMSEC Authority, if applicable.

(2) **SYSTEM CUSTODIAN:** If different from above, provide name, title, office symbol and telephone number.

C. OPERATIONAL RISK: Identify the highest level of classified processing.

ADDENDUM TO DD FORM 254

FOR PROCESSING INFORMATION
CLASSIFIED TOP SECRET

3. The following additional information is required for Top Secret information.

A. OPERATIONAL RISK (CONT): Further identify classified processing levels by estimated hours per day/month for each level, and a percentage of total material processed (e.g., 10% Top Secret; 55% Secret; 20% Confidential; 15% unclassified) for each level.

B. TECHNICAL RISK:

(1) Red/Black Installation: Describe what measures have been taken to comply with Red/Black separation/installation criteria of AFSSM 7011. Have processors processing Top Secret information been installed IAW Red/Black criteria? Was Red/Black criteria implemented during the facility design/construction/modification? If so, provide details.

(2) Physical Control Space: Identify the radius, in meters of the Physical Control Space (PCS) available around the system, equipment or facility. Describe the barriers, doors, fences, walls, etc., that define the PCS. Describe the control exercised over the PCS during duty and non-duty hours. Describe other factors which contribute to control such as visitor procedures, escort requirements, searches of personnel and/or vehicles, etc.

(3) PCS Breaches: Identify the type and location relative to the system of any unfiltered telephone or communications lines, underground or unfiltered power lines, conduit, heating and air conditioning, water pipes, etc., that transgress the established PCS.

(4) Building Construction: Describe the building in which the system is housed, e.g., concrete block walls, aluminum doors, no window, etc.

(5) Equipment: List the manufacturer and exact model number, nomenclature (terminal, disk drive, video system, etc) and quantity of each piece of equipment involved in classified processing. Do not provide a complete inventory of all the company's processing equipment.

4. EMSEC is applied on a case-by-case basis and further information may be required to complete the ESA; should this be the case, the contractor shall provide this information to the contracting officer when requested.

5. The prime contractor shall ensure that all subcontractors and/or vendors comply with EMSEC requirements when performing classified processing related to this contract. They will provide the above documentation through their prime to the contracting officer to complete the ESA.

6. Classified processing shall not be done until the EMSEC approval is provided by the contracting officer and the AIS procedures have been approved by the Defense Investigative Service (DIS).
